CAREER OBJECTIVE -

Key Strengths:

Driven architecture student looking to contribute to real world construction situations and challenges. I am reliable, hard working, dedicated, and a proficient learner. My specific program has focused on architectural urban design surrounding residential housing and the topic of climate change as well as sustainable methodology and technology for the future.

CAMPUS INVOLVEMENT -

Deans List Recognition Fall 2023

Sustainability Club

The sustainability club tackles issues on campus involving cleaning our portion of the planet as well as hearing presentations on topics surrounding climate change.

Swim Team

Lifelong swimmer, qualifier for Xavier High School Class L State Opens and Roger Williams University NEISDA Championships.
